

Ain't Never Growin' Up

Never had a midlife crisis

Cause I never grew up

But I'm gettin' these visits from Isis

In the middle of the night

And Peter brings his pan around (chorus oo's under)

We bang and make a racket

Till the **sun comes up**,

The neighborhood is really gettin' down.

Gonna rock the house down

Ain't never growin' up

It's all about town

Ain't never growin' up

About to come roun'

You're makin' such a fuss

Don't let that crazy livin' get you down.

Robbie's playin' on the guitar

Fred, he got a flute

Rockin' Jeffery's blowin' saxophone

and he gonna' make it right

Trish is on a beer run, gone to town (chorus oo's under)

The chorus line is pumpin'

Still this **party night** is way too young

Everybody gather 'round.

Let's rock the house down

Ain't never growin' up

It's all about town

Ain't never growin' up

About to come roun'

You're makin' such a fuss

Don't let that crazy livin' get you down.
