BEFORE I GROW TOO OLD (aka GROW TOO OLD) (1960)
(Bobby Charles/Fats Domino/Dave Bartholomew) Originally composed for Fats Domino

A   D   E7   A   **vamp**

```
        A                    D
I wanna go out dancing  Every night
        E7                   A
And I wanna see all the  City lights
              A                      D
And I wanna do everything   That I been told
       E7                          A
But I got to hurry up before I -    grow too old

          A                      D
And I wanna take a trip  Around the world
            E7                  A
And I wanna kiss all          the  Pretty girls
          A                          D
And I wanna buy everything That ain't been sold
       E7                            A
But I got to hurry up before I -    grow too old

               A   dramatic walk up       D
But I'm gonna do a lot of things        I know is wrong
         E7                        A
And I hope that I'm forgiven        Before I'm gone
               A                   D
Cause it will take a lot of prayin'     To save my soul
         E7                        A
But I got to hurry up before I -    grow too old
```

jam on vamp then do it all again
