

Small Town Talk Lyrics – Bobby Charles

Em A7 Em A7  
It's all small town talk, you know how people are

Dmaj7 /

They can't stand to see, someone else

Em A7 Em A7  
Doing what they like to do

Em A7 Em A7  
It's all small town talk, you mustn't pay no mind,

Dmaj7 / Em A7 Em A7

Don't believe a word, they'll try to do it every time

G A B7  
You can't believe everything you hear

G A Dmaj7 /

And only half of what you see

G A B7 /

And if you're going to believe in anyone

A  
You gotta believe in me

And it's small town talk, it's a well known fact  
You don't ever know how one might react  
To what you're thinkin ...

And in small town talk, they tell alot of lies  
Make some people crazy  
Never realize that they're sinkin'

We're only two people, tryin to live together  
And we're tryin to make something work  
Now who are we to judge one another?  
That could cause a lot of hurt ...

jam, vs1, lateda chorus – It's a small town, please believe in me.
