

Walk Beside Me

Song by Darrell Scott and Tim O'Brien

Put one foot in front of the other Dm / G /
Steppin' into the here and now Dm / G Dm
I'm not sure just where I'm goin' Dm / G /
But I will get there anyhow A7 G Dm /

I got this far with no direction
Followed my nose to where I stand
My heart's still strong, I know I'll make it
Sit right down in the promised land

F C Dm / F C Dm A7
Sister come and walk beside me, until our pathways do divide
Bb F C Dm Bb F C A7
Nothin' much but love to give you, even less have I to hide
interlude:

When you left me in the spring time
So many questions in my mind
Summer came and left me waitin'
Not one answer could I find

I see you in the Rocky Mountains
I feel you on the great North Sea
It's a lonesome road I have to travel
But you will always be with me

Brother come and walk beside me, until our pathways do divide
Nothin' much but love to give you, even less have I to hide
interlude:

I hear laughter in the thunder
I feel comfort on the wind
I see hope in hopeless faces
Someday they will love again

People come and walk beside me, until our pathways do divide
Nothin' much but love to give you, even less have I to hide

repeat last chorus, vs1, instrumental out
